With comic-inspired movies that are such a bleeding business these days, all of Hollywood's biggest names seem to be screaming to get involved. Some actors have even managed to score roles in both Marvel and D.C. movies, making their players in competitive theatre universe. Below, look at 10 actors who have taken a character from each of the major comic book companies. 1. Ryan Reynolds Green Lantern | Warner Bros. His leading innings as D.C.'s The Green Lantern in 2011 basically became the buttocks of a long-term joke, but Reynolds got the last laugh with this year's extremely successful Deadpool. Deadpool | Marvel As Marvel's merc with a mouth, Reynolds (who was also previously in the company's Blade: Trinity) finally got the superhero vehicle he was looking for: smart, funny, and certainly R-rated. And we can expect much more of the character in the near future: Deadpool 2 is already in the works. 2. Ben Affleck Daredevil | Marvel Affleck has been on a winning streak in recent years, but we (unfortunately) all remember the dark period that included 2003's Daredevil. The actor's venture as Marvel's Man Without Fear was critical and did not exactly do his already turbulent career any favours. Batman v Superman: Dawn of Justice | Warner Bros. Fortunately for Affleck, he has since gotten a second chance to play a superhero in D.C. Comics' recently released Batman v Superman: Dawn of Justice. The movie was criticised for its too much serious tone, but Affleck's portrayal of the Caped Crusader seemed to have done the iconic character justice. 3. Halle Berry Halle Berry as Storm | 20th Century Fox Berry played Storm in several of Marvel's X-Men movies, starting with the 2000 original. Although she was allegedly Director Bryan Singer clashed over her character's portrayal, she played the role in 2014's X-Men: Days of Future Past. Katwoman | Warner Bros. Bros. For Berry, it wasn't the only comic character she portrayed on the big screen. She joined the DC Comic Universe as the titular character in 2004's Catwoman. The movie was harshly criticised and apparently Berry agreed with them. The film earned the actress the award for the worst actor at the 25th Annual Razzie Awards, and she showed up to accept it and said, I want to thank Warner Bros. To give a very bad show like mine, you have to have really bad actors. 4. James Marsden James Marsden as Cyclops | 20th century Fox Marsden depicted Scott Summers aka Cyclops in Marvel's X-Men, X2: X-Men United, and X-Men: The Last Stand. Although Marsden is a charismatic actor, he was never given much to do if the laser-eyed mutant and the character was killed early in 2006's The Last Stand. He later played the role for a short cameo in X-Men: Days of Future Past. Superman Returns | Warner Bros. Marsden jumped ship to DC Comics for 2006's Superman Returns, in which he played another somewhat flawed role from Lois Lane's one-time love interest, Richard White. Hopefully Marsden will get a shot in the future against a more exciting, vibrant comic-inspired character. 5. Tommy Lee Jones Two Face in Batman Forever | Warner Bros. Jones entered the comic book world in 1995, such as coin gownster Harvey Dent aka Two Face in Batman Forever. Jones is a strong artist, but his portrayal was satisfied with mixed reviews — perhaps because he, as recently revealed, he couldn't work with co-star Jim Carrey. Colonel Chester Phillip | Marvel Studios Who didn't stop him from bodying in Captain America a decade and a half later. As Colonel Chester Phillip, Jones played exactly to tap, depiction of the gruff, skeptical, sarcastic demeanor he became known for. 6. Michael Fassbender Jonah Hex | Warner Bros. In recent years, Fassbender has proven his versatility by taking an interesting mix of comic blockbusters and Oscar-worthy rate. But his choices haven't always been that point. In 2010 he played the hat-donning, brutal sidekick Burke in D.C. adaptation of supernatural supernatural hunter Jonah Hex. Surprisingly, the movie was heavily panned and had a big box office bomb. Magneto | 20th Century Fox Happy for him, his next comic book entry was much better received. The actor portrays a young version of Marvel's Magneto in X-Men's First Class trilogy, which will come to an end with the X-Men: Apocalypse. 7. Josh Brolin Jonah Hex | Warner Bros. Like Fassbender, Brolin had a rough start in the comic film world, thanks to the critical and commercial failure Jonah Hex. While his eponymous role in the movie didn't really stretch out as he might have hoped, it didn't keep the actor from playing the role of a adopt. Thanos | Marvel He is currently playing Marvel's mad titan Thanos. So far, the character has only some small cameos in the teasing his role as the great bad that will formally come in Avengers: Infinity War. And as if that weren't enough, he also recently signed up to play the main antagonist cable in Deadpool 2. 8. Chris Evans Captain America | Marvel Studios Evans has openly said he's ready to leave the MCU behind, and you can't blame the man for feeling that way. He has been part of the Marvel family for more than a decade, having first played the retelling Johnny Storm in Fantastic Four and currently portraying Steve Rogers in the Captains America and the Avengers movies. The Losers | Warner Bros. While his Marvel roles are clearly best known, Evans also adopted the role of Jake Jensen in the 2010 movie, The Losers, based on the comic series of the same name published by DC's Vertigo print. 9. Idris Elba The

Losers | Warner Bros. Speaking of The Losers, Elba also played in the mostly failed adaptation with Evans. He played captain Jake Jensen, the team's intelligence specialist and computer hooker. Heimdall | Marvel Like Evans later adopted a comic book role in the Marvel Universe and played the ever-watching Asgardian Heimdall in the Thor movies, as well as in certain Avengers installments. 10. Zoe Saldana The Losers | Warner Bros. Saldana appears in D.C. The Losers with Evans and Elba. She played native Bolivian and mysterious-skilled fighter, Aisha al-Fadhil. Gamora | Marvel This isn't the only time she has played a comic-inspired character who knows how to keep her own in a fight. Saldana also portrayed the alien warrior Gamora in Marvel's The Guardians of the Galaxy and will play the role in the upcoming sequel. Check out Entertainment Cheat Skin on Facebook! Facebook!
